

HKS SUPER EXHAUST SYSTEM **for 86/BRZ (ZN6 / ZC6)**

Full Exhaust System from Exhaust Manifold to Muffler

**SUPER MANIFOLD
with CATALYZER
R-SPEC**

**LEGAMAX
Sports**

Exhaust Back Pressure is Significantly Reduced by R-SPEC

Catalyzer in the manifold section is removed.

Optimal layout was created by utilizing a front pipe with HKS metal catalyzer.

Perfect Muffler of [Silence] & [High Power] Created by LEGAMAX Sports

Lower rpm sound level, which is used during normal driving is similar to that of the stock exhaust

Sporty and comfortable exhaust sound is created at high RPM.

Low exhaust pressure design (-85% of stock) ensures compatibility with high level tuning

Complies with Japanese exhaust regulation & acceleration noise regulation.

JQR Number: JQR41145112 FA20

Static Noise Level (dB): 92
