

# NEW RELEASE INFORMATION

Limited in Quantity

New Model with New Concept based on MAX IV GT

## MAX IV GT Spec-A for VAB WRX STI

- Mono Tube
- 30-way Adjustable Damping
- Shock-body Length Adjustable
- Front Adjustable Pillow
- Special Oil
- PNE Coating
- Spec. Change Available
- Inverted (Only Strut)
- Overhaul Available
- 2 yrs. 40,000km Warranty

### ■ Features

- The "Ultimate Street Damper", MAX IV GT, combines crisp and sporty handling without sacrificing comfort.
- Sufficient stroke can maintain stability and smoothness even on gaps and bumps on the road. This product has 10mm more stroke on both front and rear compared to a conventional MAX IV GT to achieve high ride quality.
- Newly designed supple bump rubbers act as sub-springs across a wide bump range enabling the main spring rate to be reduced which provides the stable and superior driving performance.
- Piston design allows the valves to bend from very low speed range can provide a more gradual damping feeling. The product setup leads to reduced grip loss or fluctuation caused by changes in road surface state helping safe driving with reduced fatigue.
- Rally driver Mr. Toshihiro Arai joined testing and his experience and feedback was utilized to finalize the setup.
